Career Objective

Aspiring **Full-Stack Developer** and **AI & Data Science Engineer** with strong foundations in web development, machine learning, and problem-solving. Passionate about building scalable web applications and intelligent data-driven systems.

Education

Dr. D. Y. Patil Institute of Engineering, Management & Research (DYPIEMR), Akurdi, Pune

B.E. in Artificial Intelligence & Data Science

Expected Graduation: 2027

CGPA: 8.55 (Till Date)

Coursework

Data Science with Machine Learning (Ongoing)
Data Structures and Algorithms with Python (Ongoing)
Full-Stack Web Development

Skills

Languages: Python, C++, JavaScript, HTML, CSS

Frameworks & Technologies: React.js, Node.js, Express.js, MongoDB, MySQL, Firebase, REST APIs, Tailwind, Bootstrap, TensorFlow

Developer Tools: Git, GitHub, VS Code, Vercel, Render

Core Competencies: Full-Stack Web Development, Machine Learning, DSA

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability

Projects

MEDILOG – Doctor & Patient Management System (React, Firebase)

- Web platform enabling appointment booking, patient history tracking, and medicine management.
- Implemented Firebase authentication and real-time database for secure and smooth access.
- Designed responsive UI for doctors and patients using React and CSS3.

Drone Surveillance System – Hackathon Project (FastAPI, PyBullet, .NET, MongoDB)

- Built an AI-powered drone system for anomaly, flood, and fire detection using machine learning.
- Developed drone simulation and real-time analytics with FastAPI and PyBullet.
- Qualified Round 2 (Top 120/240+) in Inno-Hackathon VIT 2024.

ReelLocal – Video Editing Marketplace (MERN Stack)

- Developed a full-stack platform connecting clients with professional video editors.
- Integrated Razorpay payments, file uploads, and real-time messaging via Socket.IO.
- Tech Stack: React 18, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, JWT, Multer.

Trending Movies App (React.js, TMDb API)

- Web app showcasing top trending movies using TMDb API.
- Deployed on Vercel with dynamic real-time data fetching and optimized performance.

Experience

Currently gaining practical experience through academic projects, hackathons, and continuous self-learning.
